Automatic lip sync in 1 minute (After Effects) . 138 224 views138 thousand views. July 23, 2012 . With this program you can change the shape of the lips and their color. By default, the program makes the lips black, and changes the color to any other. To make lips more expressive, you can adjust the settings in the program. For example, you can change the opacity and saturation of the lips. To do this, press the X key in the toolbar in the top row or place the pointer on the lips area, select and click the left mouse button.
