Festo Fluidsim 45 Cracking test Festo Fluidsim Festo Fluidsim is software that enables the simulation and analysis of piping systems. It allows you to evaluate the performance of piping systems modeled in 3D. As a result, you will get a detailed view of the state of the system and its performance. In particular, you will make sure that important parameters were not missed as a result of the design, as well as the composition of the working fluid was not missed.
