
Large Address Aware Hoi3

[Download](#)

May 9, 2015 â€” If after a couple of minutes of playing HOI3 you notice that the game regularly crashes to the desktop, you may need to install the Large Address Assistance (LAA) feature. This option allows you to run games with more polygons than they are implemented in, and reduces the load on the system. To enable/disable this feature, go to the "Settings" of the game and select the "Memory Management" option. Find LAA in the list and set its value to [false]. Note: LAA is not included in the game, but is provided by its developers as a free DLC. To get it, go to the official website.
