Product Description Rica Dental Superiorium – a true hybrid with its qualities of superiorium against plaque acids, having the advantage of maintaining original tooth whiteness, and also of superiorium against tartar or calculus on difficult to reach surfaces. Because of its high performance it meets the highest requirements of the demanding professional. Rica Dental Superiorium is highly effective against plaque acids as an initial and supplementary prophylactic measure against plaque formation. Rica Superiorium is an effective product to keep your teeth in their original whiteness and to treat the difficult-to-reach tooth surfaces, like fissures or root caries. In addition, it comes in a refreshing cherry-flavoured and mint-flavoured version. Main characteristics: – pH-value: below 7, so it stays in your mouth longer – gentle, non-sensitising formula – excellent cleaning result – effective against plaque formation – high anti-calculus activity – highly effective against plaque acids – special fresh/mint flavour – effective against tartar and plaque acids How to apply: Rica Dental Superiorium: The refreshing cherry-flavoured and the mint-flavoured version is available as a tube or a small brush. Preparation: Rica Dental Superiorium should be rinsed out completely with water before use. Dilution: Special care should be taken that a dilution of 1:10 applies no more than 5% of the dental material. Flavor: Rica Superiorium comes in a fresh, fresh cherry-flavoured and a fresh, fresh mint-flavoured version Storage: Store away from direct sunlight and always store at a temperature between 8°C and 25°C Step by step procedure how to make use of Superiorium: Tooth brush: The refreshing cherry-flavoured and the mint-flavoured version is available in tubes or small brushes (precise instructions to follow).
