BG\_ASCII Screenshot of the Features: The following are some screenshots of the above mentioned features of "BG\_ASCII":Q: Should I design formulae or mathematical equations for students? My econometrics classes consist of around 30 undergrads. One of my tasks is that I have to make them understand mathematical equations. But, when I have to explain formulae to them, it takes a lot of time. When I talk like "By executing  $x_{2}=\sqrt{2}$  we get the result  $x_{3}=-\sqrt{2}$ ", they don't understand this at all.

## BG\_ASCII
