

In "Elden Ring: The Tarnished Prince," you can choose the direction of character growth and class development. The number of skills and class types available to you is great, and your experience level grows continuously. Elden Ring is an action RPG where battles are carried out with swords, axes, and magic. Every encounter is a different story, making it especially refreshing and fun. The most important aspect of this game is that as you battle, you strengthen the bond with other characters. The stories you participate in are also linked, meaning you can affect the events in the other players' stories. By the time you've played for an hour or two, all the players will be connected together like a great web of connections. In other words, it's quite possible that the characters that make up this story will cross paths again. The game's characters are commonly referred to as "Magers." At the outset of the story, the player is given a choice of whether to take on the role of the Magers who appeared in the past, the Magers of the future, or a mysterious Mager from an unknown time. During the course of the story, you can experience various changes in the relationship with the characters, such as whether they help or hinder you, and the bonds you form with them will grow stronger as a result. Magers are also able to go back in time to take part in the Magers War and war for A-class Magers. In addition, many times the legend of the Land Between has been embellished by Magers throughout the ages, and we have incorporated them as the basis for the new story. For example, the story of Avalon and the Eden Ring, which is the basis for the game itself, was composed by the Magers of the past. See the list of acknowledgements! (URL to be posted) ©2017 Marvelous Inc. (Webhiroo)The Russian Doll The Russian Doll is a collective term for a Soviet invention called the Zaumnyie ("standing") pillbox. The Soviet army used pillboxes to defend cities against counter-attacks as well as against Nazi air raids. The Soviet Standing Pillbox As shown on the right, the standing pillbox was a Soviet invention. The building shape was similar to a pillbox, but it was made to be mobile. A window was used as the only portal for the infantry to enter and exit the bunker. No concrete walls were needed because the pillbox could be set up in marshy terrain as a form of defense. The Soviet Zaumnyie standing pillbox is also called an R-60 pillbox. Soviet troops called them the Chelyuskin ('coal mine') pillbox. The design looked like this: Capacity The bomb capacity of a standing pillbox was about 60kg. The Ural Standing Pillbox Several variations of the standing pillbox exist throughout the former USSR, Russia, Ukraine, Belarus, Poland

What's new:

'NieR: Automata' is a work of fiction. The game is not always true to real-life experiences, and is of course not intended to provoke in the players actual events in their everyday lives. All contents are fictitious, and there is no speculation regarding the game's story, the content or its characters.

^^ [9/23/2018]: Seems confirmed *so far* for October 19... TicTacWiki: [[NieR: Automata]] ^^ [7/26/2017]: I can't delete this because I don't own either game. Anyway... Created by Say the correct quote from the trailer when you get to the part where you see the white power. Feature-request is to have the countdown before the robot battle. TicTacWiki: [[NieR: Automata]] ([[FullMetalPanda/ByNieR_17]]?) Suggested Discord name: NierRex Hey and also we don't know what's going on because of the 'We are in alliance' part :
