The Elden Ring Kingdom is long gone. With you lying in a state of paralysis, a shadowy figure clad in silver armor emerged from the shadows and came to you. “You have been selected to be the hero of the remnants of the Elden Ring, which have been revived and strengthened, and you have been given the power of a god. I am the Elden Dragon, a dragon of the fire type who has been given the power of a god, and who once used his power for the sake of the prosperity of the world. Do not lose hope. When the sky is blackened, the world will plunge into darkness. Seek and restore those who are lying in their graves as the light of the world. Without the light of hope, things will get dark.” The Elden Dragon, as his name implies, is the last standing member of the Elden Ring, a strong and fearsome figure who wields a soul-consuming flame. But his fearsome appearance and arrogance have clashed with the gloomy conditions of the World of Darkness, and he has been imprisoned within the cursed slum of the Anti-Dragon Base. Your mission in this game is to rescue him and defeat the Anti-Dragon Organization.

Overview Since this game was first announced, the world of fantasy RPG has been on everyone's lips. The enthusiastic character designs, the grand scale, and the deep story have captivated many. I am also excited about this! Even with the gravity of this information, I am still proud of what we've been able to create. At the same time, there are some things we are still working on. Please look forward to it.

Zidora>MIXED REVIEW | In The Elder Scrolls IV:

Oblivion, you receive skills as you level up. That's not the case in The Elder Scrolls IV: Legends.

If you're familiar with the formula of MMORPGs, you know that your fundamental statistics do not change. However, your skills and abilities do. The only question is how do those skill changes occur?

Two conditions must be met. The first is you have to have enough items, and the second is you have to be proficient in said skill. Looted items are a given, but since you're probably farming a dungeon, these conditions are also already filled.

The same thing goes for Reckless Attacks in Legend. Perhaps this is something that hasn't come across in your MMO experience, but it applies to every skill for every character. Every single character in a single progression tier of a single dungeon.

With that being said, some skills, even in MMOs, have infinite use. In Legend, you could be flooding your allies with disaster spells to absorb damage or cast a powerful buff on an ally to give them all health back or prevent them from taking damage. There's no lack of use for some of the skill types.

However, the problem comes when you get past the core set of skills. Once you start
