Q: How to check if a mapping exists in Rust? I am trying to find a string beginning with a certain prefix, and if such mapping does not exist, I want a string beginning with another prefix. I am using the following code:

```
let mut vlists: BTreeMap = BTreeMap::new(); vlists.insert("literal".to_string(), BTreeSet::new()); fn main() { let s: &str = "literalapi"; match vlists.get(&s) { Some((name: &str, sign: &BTreeSet)) => { println!("Name : {}", name); println!("Strings in {} : {}", sign, sign.len()); } None => println!("String {} not found", s), } }
```

 However, it always returns None, even if the whole name literalapi, not literal is in vlists. Am I doing this the right way, or is there a better way in Rust to do this? Also

MY LITTLE PONY: FRIENDSHIP IS MAGIC Reviews and Ratings: "This is a really fun game. If you like Ponies and RPG's this is a must for your collection, especially at a discounted price. The music and voices in the game are top notch and really add to the experience. The only issue is a few sections of dialog aren't completely translated to English yet. But if that could be fixed (and it's a pretty minor issue), this game would be a 5 star I'd recommend it to anyone who enjoys anything to do with Ponies or RPG's." "This game is a blast to play. It's got a solid story with lots of comedic moments and a wonderful music track with a lovely voice acting track to match. The game's atmosphere is just spot on and reminds you of the cartoons with the way the visuals and dialogue flow perfectly together. There are lots of goodies hidden within the game which added an extra layer of fun. The classes are just right and the player has a good variety of choices to make in how they approach the game. The game's difficulty range is just right as well and you need to have patience and try your hardest to keep on fighting through the harder enemies if you want to win." "This game is based off of the My Little Pony cartoon. If you know of the cartoon, then you know that it revolves around the ponies who are very, very unique. Their theme music is very catchy and the voice acting is great in this game. It's a wonderful PNP/RPG. I would highly recommend it to anyone who likes the cartoon or just has a thirst for Ponies or RPG's." "I got this game by accident, for free. I was already a fan of the ponies, as they are one of my favorite cartoon series. However, I didn't realize that if I asked for the game I would be getting a great PNP/RPG. The dialogue is just great, and the musical track really adds to the atmosphere of the game." "I'd recommend this game to anyone who's interested in My Little Pony or RPG's. It's got a good story and wonderful dialogue, music, and voice acting." MY LITTLE PONY THE PONYVILLE ADVENTURES Reviews and Ratings: "This game takes place in Ponyville. The main character is Twilight Sparkle who is in possession of an amulet that can be used by ponies to transform into a pony. The rest of the cast bff6bb2d33
