About Year, Origin, Battle Arms

The year is 541 A.D. in the Lands Between and the era of the empire of Kirkland. It is the end of a six-year revolution by the followers of the title, and the Christian god has been restored. The game world of every single one of you is also fully open to all. To prepare for the next stage of the war, the Military has been diligently preparing deep into the restricted region of Aran. The vast area of the forbidden zone is filled with secrets that are regarded as holy inviolable territories and mysteries so fervently that the map of the region is blank. For the purpose of controlling the vast zone, an army of monsters called "Large Monsters" that is impossible to be defeated by humans has been created. The military formed the army of Large Monsters in order to lay down the groundwork of defending the forbidden zone in a militaristic way and protect the passing troops, and nurture the army of Large Monsters as the troops ready to face the upcoming danger. The army of Large Monsters has been dispatched from the military headquarters from all over the Lands Between on pilgrimages that can only be summoned if the player successfully promotes to the highest rank. By visiting such a dangerous area for the first time in one's life, the player is raised to the rank of an "Elden Lord" with full authority to bring about "the Morning" and "the End" to humanity. "Elden Lord" will guide the player as the character of the "Elden Ring."
