About Kabumix Games Kabumix Games is a media company specializing in the creation of games and an artist's community. Kabumix Games is primarily known for the Dear Stage franchise, which has attracted fans for its unique character portrayal and is now entering its third generation. Dear Stage, a role-playing game (RPG) created by Kabumix Games as a game that can address our heavy hearts, is a simulation RPG in which players are able to immerse themselves in and take on the role of a being from ancient times. Dear Stage 3, a game that has grown explosively in popularity with the issue of COVID-19, will be the next generation in an already successful game and is one of the most anticipated RPG titles.

Dear Stage 3 will focus on the theme of "DARK LOVE." Players will be able to explore the Land Between to deepen the connection between characters (henceforth known as "friends") with special missions and events. A similar idea to the preceding Dear Stage series, Dear Stage 3 has features such as "discoverability" in which players can find friends on their own, and the ability to communicate with friends in non-battlefield areas. The story will center around a young man (player character) who attempts to repair the fractured ties with his friends. Dear Stage 3 is developing as a mix between the social simulation RPG and visual novel genre in terms of its content and environment. In order to deliver a game that will address heavy hearts, those with a strong sense of empathy for people who are on the receiving end of feelings of anxiety and depression, the development
