What's New in the 32x32 Free Design Icons?

No words. Just icons! They are all generated by IconMonkey and you get

them for free! Free To Work with No Second Thought! BICSIK is a free small 32x32 icon designer for Windows, it allows you to quickly and easily edit icon images. It's easy to use and it allows you to resize and rotate your icon and see what it would look like before you save it. From the developer: This utility is a GUI application that

allows users to edit graphics with one click, no matter how complicated or simple they are. Graphics are easily modified, without any additional software. After basic editing, images can be saved in any of the most common formats, and the image details can be seen in the properties panel. In addition to that, you can

save the image in various formats, including BMP, ICO, GIF and PNG. Functions of BICSIK: * Edit graphic images * Very easy to use - you only have to drag the mouse over the area that you want to change, or use your keyboard to select and cut images * Allows to edit images with one click * Save the image in different formats: BMP,

ICO, GIF and PNG * Show the image in the properties panel * Allows to re-size and rotate your image * BICSIK offers presets, such as a ready logo, ready icon and ready icon with background * Supports resizing up to 2500% * Supports resizing up to 5000% * Supports resizing up to 10000% * Supports resizing up to

1600% * Supports resizing up to 2000% * Supports rotation up to 360 degrees * Supports rotation up to 360 degrees * You can also reduce the size of your image, if you wish * You can also resize the image so it takes any form you want - you can only find this option by pressing the "generate new images" icon * Supports

all the main graphic formats, including PNG, BMP, ICO and GIF * Supports all the main graphic formats, including PNG, BMP, ICO and GIF * Supports editing of the icon and transparent sections. * Supports editing of the icon and transparent sections.
