Flag Age: 21+ Years of Age USA Flag Size: 21' x 30' USA Flag  
Description: The Stars and Stripes: A 270-year tradition from the  
founding of the United States of America by the Continental  
Congress in 1777, the Stars and Stripes are a defining symbol of  
the United States of America. They are the official flag of the United  
States of America. USA Flag History: The Stars and Stripes was  
officially adopted on July 4, 1777, by resolution of the Second  
Continental Congress. On July 4, 1785, Congress passed the act that  
was approved by President Washington and received final approval  
by the United States Senate on December 18, 1785. Then Secretary  
of State Jefferson signed the act on December 19, 1785 and  
officially sent the paper to the 10 states. Each state used its own  
unique method of finishing the flag including the state seal, states  
motto, the state name, state bird, state flower, and state tree. The  
stars and the stripes were as stars because they were supposed to  
represent as many as 100 states in the union, and the number of  
stripes as many as 50 new states being added by 1790. USA Flag  
Help: The origin of the flag is the same date as the foundation of  
the United States, the signing of the Declaration of Independence  
by the Continental Congress on July 4th, 1776. The diagonal blue  
and white stripes of the flag represent the same colors of the British  
flag, which were used by the new nation to rally against Great  
Britain. The American revolutionaries saw the colors of the British  
flag as a rejection of the rule of King George III. The current U.S.  
flag design is quite similar to the "Grand Union flag" that appeared  
on a 1777 broadside. USA Flag Meaning: The origin of the flag is the  
same date as the foundation of the United States, the signing of the  
Declaration of Independence by the Continental Congress on July  
4th, 1776. The diagonal blue and white stripes of
